Summary

Independent product developer who designs, builds, and ships apps, games, and browser tools end to end: scope, UX, development, monetization, and release. Brings ten years of journalism and communications experience to product writing, user research, and analytics.

Skills

Product: Product discovery, scoping, roadmapping, UX design, onboarding, subscription design, product analytics, App Store and Chrome Web Store release

Development: TypeScript, JavaScript, React Native, Expo, React, Astro, Supabase, PostgreSQL, RevenueCat, Chrome extensions, Git

Data: Python, SQL, analytics and event tracking

Languages: Turkish (native), English (professional working proficiency)

Experience

Product Developer

Independent | Remote | 2025 - Present

- Design, build, and release apps, games, and browser extensions from concept to launch.
- Shipped iOS apps on the App Store and a Chrome extension; a game is in development.
- Develop mobile apps with React Native and Expo, and web products with React and Astro.
- Implement authentication, sync, and shared data with Supabase (PostgreSQL); add subscriptions with RevenueCat.
- Use product analytics to refine onboarding, retention mechanics, and features.

Communications Advisor

İzmir Metropolitan Municipality and İZBETON | İzmir, Türkiye | 2019 - 2024

- Translated stakeholder needs into web portals, reporting tools, and dashboards.
- Scoped requirements and coordinated designers, developers, and agencies through delivery.

Digital Journalist and Editor

BirGün, dokuz8HABER, Ege'de Sonsöz | Türkiye | 2014 - 2019

- Built reader-facing interactive graphics and data tools for digital coverage.
- Analyzed public data with SQL and Excel on daily deadlines.

Education

Master's Degree, New Media | Kadir Has University | 2017 - 2019

GPA 3.68/4.00. Thesis: News readers' perception of clickbait news.

Bachelor's Degree, Journalism | Ege University | 2011 - 2015

Erasmus exchange semester, University of Lodz, 2014.
