

Anil Karaca

OPEN TO FULL-TIME INTERNATIONAL ROLES

Public-interest storyteller and product-minded builder with 10+ years across journalism, civic communications, and shipped digital work.

anilkaraca140@gmail.com / anilkaraca.com / [LinkedIn](#) / [GitHub](#)

I am strongest in roles where reporting, analysis, interface design, and delivery need to work together.

Data journalist and developer with a track record spanning elections, civic systems, mobile apps, and custom story formats. I can move from raw source material to analysis, narrative framing, and the final interface.

Experience: 10+ years across journalism and digital product work | **Core lanes:** Data journalism and frontend or mobile delivery | **Current focus:** Full-time roles with global or remote teams

TARGET ROLES	CORE STRENGTHS	KEY LINKS
Data journalist	Reporting plus implementation	Data journalism lane
Editorial product	Clear product communication	Developer lane
Frontend or mobile developer	Fast, resourceful execution	LinkedIn
		GitHub

Academic paper: News readers' perception of clickbait news.

SELECTED EXPERIENCE

The through-line is the same in each role: make complex things understandable and useful.

Independent app developer and data journalist

2025 - Present

Self-directed work | 2025 - Present

- Shipping mobile apps while continuing political and civic data reporting.
- Combining product execution with newsroom-style analysis and presentation.

Communications advisor

2024

Izmir Metropolitan Municipality and Izbeton | 2024

- Produced civic communications, documentary work, and digital storytelling for large public audiences.
- Built clarity around public-service topics across video, web, and editorial formats.

Senior digital journalist

2014 - 2024

BirGun, dokuz8HABER, Egede SonSoz | 2014 - 2024

- Reported, edited, visualized, and published multi-format journalism with a digital-first approach.
- Worked across breaking stories, long-form reporting, visual explainers, and audience-facing web formats.

SELECTED WORK

Examples that show the mix of editorial judgment and product delivery.

Crackdown on CHP

Data-led investigation documenting political pressure on Turkey's main opposition party.

Parliament Analysis

Interactive reporting product that turns parliamentary data into an explorable interface.

Yeser, ChoreUs, AI Fit Check

Released mobile apps built with React Native and Expo, covering wellness, household coordination, and AI-assisted consumer UX.

Izmir civic data analyses

Traffic collision and public-transportation investigations built from municipal open data and custom visual presentation.

TOOLKIT

A hybrid toolkit for editorial, analytical, and product work.

Reporting and analysis	Python, Pandas, SQL, D3.js, Plotly, Flourish, data cleaning, and editorial framing.
Frontend and mobile	React Native, Expo, React, Astro, JavaScript, TypeScript, and pragmatic product implementation.
Supporting capabilities	Story design, scrollytelling, documentary production, communication strategy, and AI-assisted iteration.
