

Anil Karaca

OPEN TO DATA REPORTING AND EDITORIAL
PRODUCT ROLES

Data journalist focused on elections, civic systems, accountability stories, and interactive reporting that makes public evidence easier to understand.

anilkaraca140@gmail.com / anilkaraca.com / [LinkedIn](#) / [Contact](#)

I report with data, but I also know how to structure and publish the story around it.

My journalism work focuses on politics, urban systems, elections, and civic accountability. I can handle the full path from raw public datasets through cleaning, analysis, story framing, visualization, and final web delivery.

Coverage focus: Politics, civic systems, elections, and city data | **Editorial edge:** Analysis, visualization, and web-native formats | **Hiring fit:** Data reporting and editorial product roles

TARGET ROLES	CORE STRENGTHS	KEY LINKS
Data journalist	Public-interest analysis	Portfolio
Data reporter	Web-native storytelling	Data journalism lane
Investigative / visual reporting	Source-to-story workflow	Contact
		LinkedIn

Strong fit for editorial product teams that need reporting and implementation in the same role.

SELECTED EXPERIENCE

The strongest fit is with teams that need rigorous analysis and publishable storytelling in one workflow.

Independent data journalist and reporter

2025 - Present

Self-directed work | 2025 - Present

- Continuing public-interest analysis while building story-led digital formats.
- Publishing work that connects politics, civic data, and public understanding.

Communications advisor

2024

Izmir Metropolitan Municipality and Izbeton | 2024

- Produced civic storytelling and documentary work that improved clarity on public-service topics.
- Strengthened narrative pacing, interview structure, and audience-oriented communication.

Senior digital journalist

2014 - 2024

BirGun, dokuz8HABER, Egede SonSoz | 2014 - 2024

- Worked across reporting, editing, visual explainers, and digital-first publication workflows.
- Developed a newsroom approach that combines speed, verification, and clear story architecture.

SELECTED JOURNALISM WORK

Projects chosen for editorial clarity, analytical depth, and public-interest relevance.

Crackdown on CHP

Data-led documentation of judicial pressure on Turkey's main opposition party.

Parliament Analysis

Interactive public-interest reporting on legislative behavior and party dynamics.

Turkey Elections: Red Wave Conquers Anatolia

English-language election analysis built with maps, charts, and contextual reporting.

Izmir traffic and transportation analyses

Civic-data stories built from large municipal datasets and turned into readable public explanations.

TOOLKIT

The editorial toolkit behind the stories.

Data workflow	Python, Pandas, SQL, data cleaning, source normalization, and analysis for public-facing stories.
Visual storytelling	D3.js, Plotly, Flourish, custom embeds, and scrollytelling-oriented presentation.
Editorial collaboration	Story framing, digital publishing, interview-informed structure, and newsroom-adjacent product thinking.

This version is intentionally optimized for recruiters and editors reviewing me for journalism-focused roles.
