Mobile Product: React Native, Expo, iOS App Store Delivery, Mobile UX, Onboarding Experiences, Gamification Loops, Habit Design & Streaks, Subscription Monetization (RevenueCat)

Technical Stack: TypeScript, JavaScript, React, Astro, Tailwind CSS, Supabase Auth, PostgreSQL, SQL, Real-Time Data Sync, Git/GitHub

Data & Analytics: Python, Pandas, Product Metrics, A/B Testing, User Cohort Analysis, Excel, Google Sheets

Communication: Product Messaging, Editorial Standards, Fact-Checking, Cross-Functional Communication, Documentation

Languages: Turkish (Native), English (Professional)

Experience

Independent App Developer & Product Specialist

2025 - Present

Self-directed work | Remote

- Full Lifecycle Product Shipping: Shipped 4 consumer iOS products to the App Store from initial concept (MVP) to launch; managed cross-functional workflows using React Native and Expo, maintaining active App Store applications.
- Mobile UX & Monetization Optimization: Implemented secure Supabase auth and database flows, integrating RevenueCat subscription infrastructure; designed an intuitive, multi-step subscription paywall to support trial conversion and lower onboarding funnel friction.
- Data-Driven Feature Iteration: Analyzed user behavior logs and designed gamification structures (such as mascot progression mechanics for ChoreUs); ran A/B tests on mobile onboarding journeys to optimize user retention.
- Maintained product portfolio and case-study documentation at anilkaraca.com.

Communications Advisor

2019 - 2024

İzmir Metropolitan Municipality & İZBETON | İzmir, Türkiye

- Product Analytics & Dashboards: Leveraged civic tech capabilities to translate stakeholder needs into custom web dashboards and reporting portals.
- Feature Scoping & Alignment: Scoped requirements and aligned municipal stakeholders, content creators, and developers on digital product delivery.
- UX & Public Transparency: Designed custom web tools and visual dashboards to assist decision-making and public communication.

Digital Journalist / Editor

2014 - 2019

BirGün | [dokuz8HABER](https://www.dokuz8haber.com) | [Ege'de Sonsöz](https://www.egede.com.tr) | Türkiye

- Live Data Tools: Shipped real-time election tracking products requiring extreme speed, reliability, and visual clarity.
- Analytical Research: Analyzed election databases and public records with SQL and Excel to support investigative data products.
- Deadline-Driven Execution: Developed a delivery-oriented mindset through rapid content release and real-time audience-facing tools.

Education

Kadir Has University – Master's Degree, New Media (2017 - 2019) · GPA 3.68/4.00
